Use your cellphone as a microphone.

- Record Voice Over on your phone's voice recorder
  - Android: Voice Recorder App
  - Apple: Voice Memo App
- Email voice recording to [competition@goodhopefm.co.za](mailto:competition@goodhopefm.co.za).
  - Subject line: Campus Dj Search
  - Please include your name and surname in the email.
- Tips:
  - The closer the microphone is to your face, the less you have to project, which means the less you have to "shout".
  - Beware of clipping. (Clipping is when the sound is too loud for the microphone)
  - Beware of P-Pops and Plosives. (Some letters push too much wind into the microphone resulting in Plosives.)
